

YASH LANDE

Software Engineer – Backend Development (Fresher)

yashlande910@gmail.com | 7498733940 | Pune | linkedin.com/in/yashlande09 | github.com/Yashlande09

PROFESSIONAL SUMMARY

Entry-level Backend Developer (B.Tech CSE, 2026) with a strong foundation in Data Structures & Algorithms, OOP, DBMS, and SDLC. Hands-on experience building REST APIs, database-integrated systems, and ETL pipelines using Python and FastAPI. Comfortable across the backend stack — from schema design and query optimization to endpoint testing and debugging — with practical exposure to Git-based collaborative workflows.

TECHNICAL SKILLS

- Programming: Python, SQL
- Backend Development: REST APIs, FastAPI, CRUD Operations, Application Development, Unit Testing, Debugging
- Backend Tooling: Docker (basic), Postman, JWT Authentication, Microservices Architecture (foundational), CI/CD basics (GitHub Actions)
- Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, SDLC, Networking
- Databases: MySQL, PostgreSQL, MongoDB, Oracle
- Libraries & Tools: Pandas, NumPy, Seaborn, SciPy, Git, GitHub
- Generative AI: Prompt Engineering, n8n (basic)

PROJECTS

Credit Score & Risk Analysis System | Python, SQL, FastAPI, MySQL | Sep 2025 – Dec 2025

- Designed backend logic for a credit risk prediction system, implementing scoring algorithms in Python with optimized SQL queries for data processing.
- Built REST APIs using FastAPI to expose risk-prediction endpoints, and developed ETL pipelines using Pandas to clean and transform applicant data.
- Integrated MySQL for persistent storage, handling data across a ~5,000-row applicant dataset with structured schema design.

Stock Price Analysis Application | Python, Pandas, NumPy | Apr 2025 – Jul 2025

- Built a backend application for financial data processing, implementing a Linear Regression model to analyze and predict stock price trends.
- Designed efficient data pipelines with Pandas and NumPy to handle data ingestion, transformation, and performance-metric optimization.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering

Rashtrasant Tukadoji Maharaj Nagpur University | CGPA: 7.64 | 2022 – 2026

Higher Secondary Certificate (HSC) – Science, Gondwana University, Gadchiroli | 67.86% | 2021 – 2022

Secondary School Certificate (SSC), Gondwana University, Gadchiroli | 81.20% | 2019 – 2020

CERTIFICATIONS

- IBM: Python for Data Science
- SQL (Udemy)
- Oracle: Data Science Professional
- Oracle: Generative AI Professional
- AWS: Data Engineering
- AWS: Machine Learning

PROFESSIONAL TRAINING

Data Science Trainee | QSpiders, Wakad, Pune | Feb 2026 – Aug 2026

- Completed hands-on training in Python, SQL, Statistics, Machine Learning, Deep Learning, and Data Visualization.
- Built end-to-end data science projects using Python, Pandas, NumPy, Scikit-learn, and Power BI.
- Worked on data preprocessing, feature engineering, model training, evaluation, and deployment.
- Developed practical experience with Git, Jupyter Notebook, and real-world datasets.

ACHIEVEMENT

- Naukri Campus Young Turks Award — 97.35th percentile
